

Li Jian Zhang (Li Zhang)

Toronto, ON | [Google Scholar](#) | lijian.zhang@mail.utoronto.ca | [linkedin.com/in/lijian-zhang](https://www.linkedin.com/in/lijian-zhang) | github.com/lzhang4672 |

RESEARCH INTERESTS

AI for Science · Neuro-symbolic methods · Interpretability & XAI · Generative models · Transparent and reliable AI

EDUCATION

University of Toronto MSc in Computer Science Supervised by Prof. Xujie Si	Present
University of Toronto BSc Computer Science Specialist, Statistics Major cGPA: 3.75/4.0	2022 – 2026

EXPERIENCE

Research Assistant <i>University of Toronto (with Prof. Xujie Si)</i> – Neuro-symbolic methods, XAI, mechanistic interpretability.	June 2025 – Present
Machine Learning Research Intern <i>Flybits</i> – Perspective-aware AI. (with Dr. Marjan Alirezaie & Dr. Hossein Rahnama)	February 2025 – December 2025
Student Research Automation Engineer <i>Acceleration Consortium (Human Organ Mimicry)</i> – Bayesian optimization and agentic experiment-planning loops for autonomous wet-lab workflows.	April 2025 – December 2025
Research Assistant <i>University of Toronto (with Prof. Feng Ji)</i>	Sept 2024 – March 2025
Research Assistant <i>University of Toronto — Rotman School of Management (with Prof. Irene Yi)</i>	June 2024 – November 2024

PUBLICATIONS

[1] Neural Proposals, Symbolic Guarantees: Neuro-Symbolic Graph Generation with Hard Constraints Chuqin Geng, Li Zhang , Mark Zhang, Haolin Ye, Ziyu Zhao, Xujie Si	arXiv 2026
[2] Beyond Message Passing: A Symbolic Alternative for Expressive and Interpretable Graph Learning Chuqin Geng, Li Zhang , Haolin Ye, Ziyu Zhao, Yuhe Jiang, Tara Saba, Xinyu Wang, Xujie Si	arXiv 2026
[3] VisionLogic: From Neuron Activations to Causally Grounded Concept Rules for Vision Models Chuqin Geng, Yuhe Jiang, Ziyu Zhao, Zhaoyue Wang, Haolin Ye, Anqi Xing, Li Zhang , Xujie Si	Preprint 2026
[4] NEUROLOGIC: From Neural Representations to Interpretable Logic Rules Chuqin Geng, Anqi Xing, Li Zhang , Ziyu Zhao, Yuhe Jiang, Xujie Si	UCRL @ ICLR 2026
[5] PAiNT: Perspective-Aware AI Identity and Narrative Toolkit for Generating Labeled Digital Footprints Jisung Shin, Daniel Platnick, Tanayjyot Singh Chawla, Li Zhang , Kazi Rahman, Amardeep Singh, Arnav Chandna, Marjan Alirezaie, Hossein Rahnama	Preprint 2026

TALKS / PRESENTATIONS

Rethinking Deep Learning Autodiff for Rust & C <i>Poster (UofT AI Conference X)</i>	December 2024
--	---------------

SKILLS

Programming Languages : Python, C/C++, Lua, Java, Rust
Frameworks : PyTorch, HuggingFace Transformers/Diffusers, PyTorch Geometric, NumPy, Pandas

AWARDS

Entrance Scholarship <i>Trinity College</i> Dean's List Scholar	September 2022 2022, 2023, 2024, 2025
--	--
